LVR meets the challenge — satisfying the most demanding refractory application needs under the safest possible conditions. LVR's comprehensive service provides project evaluation, refractory tear out, and installation from a single reliable source — shortening maintenance downtime.

CEMENT AND LIME SERVICES

**Refractory Removal • Kiln Line Maintenance
Refractory Install • Burner Pipe Repair • Tear Out Encapsulation
Refractory Material Supply • Pre-Cast Shapes
24/7 Emergency Response**

We have crews, equipment, and material ready to mobilize on short notice from our three branch locations.

LVR OFFICE LOCATIONS

LVR, Inc. – Northampton
75 W 21st St.
Northampton, PA 18067

CEMENT AND LIME INDUSTRY SERVICES PROVIDED

Engineering and Design

LVR offers complete design and engineering services for the cement and lime industry. We partner closely with our manufacturers to provide customized refractory solutions.

Refractory Install

Our highly skilled installers have logged thousands of man hours performing brick installation of rotary, arch, and flatwork, shotcrete, pumping, gunite, ramming, and more.

Kiln Line Maintenance

LVR's experienced team can quote, plan, and execute your annual maintenance projects, reacting quickly to changes in job scope to save you time and money.

Refractory Removal

Worker safety and maintenance downtime are significantly improved by utilizing specialty engineered demolition equipment. Available in multiple configurations.

Tear Out Encapsulation

LVR's encapsulation system is built with a structural steel frame and designed for easy deployment. Our dual HEPA filtration system minimizes dust and contaminants.

Pre-Cast Shapes

LVR is a leader in the manufacture and installation of pre-cast refractory shapes. We utilize engineered refractory materials specifically designed to meet end use application requirements.

Our warehouses are stocked with a full line of materials ready for immediate shipment.

**Shotcrete and Gunning • Brick • Plastics and Ramming
Castables • High Temperature Insulation • Mortar
Abrasion and Acid/Corrosion Resistant Material • Anchoring Hardware**
